Vouchers, Education Savings Accounts, and the Growing Threat

to Public Education - Legislative efforts are underway to expand a new form of the publicly-funded private school voucher program in South Carolina. Several bills that currently reside in both the House and Senate would establish an Education Savings Accounts (ESAs) program that would redirect public education dollars for individuals to use for private school tuition and related expenses. Hear how this program and others may be undermining the state's first constitutional duty to support adequate opportunities in public schools from a

University of South Carolina law professor whose focus of study is the intersection of constitutional law and public education.

the ease of accessibility and the ability of users to freely express their thoughts can present legal challenges for public official users. Come hear about recent court decisions on the use of social media by public officials and use these decisions to provide attendees with best practices when using social media platforms.
