**Department of Education Overreach**

1. ED has established significant and detailed program initiatives that, in the absence of federal legislation or on the basis of very general language, has:

- ▶ Compromised local school board governance
- ▶ Limited the flexibility that school districts need to meet local, state, and federal goals
- ▶ Imposed unnecessary costs, administrative burdens and negative consequences in the classroom

2. ED's rules etc. are not adequately responsive to local school operations

10

---

---

---

---

---

---

---

---

**Examples of the Overreach**

**1. Absence of Specific Legislative Authority**

- ▶ State Race to the Top grants
- ▶ Grant priorities
- ▶ Local Race to the Top grants
- ▶ NCLB waiver conditions

**2. Lack of Responsiveness to Local Concerns**

11

---

---

---

---

---

---

---

---

**ESEA: House Passed Bill (H.R. 5)**

- ▶ Grade Testing And Subgroup Reporting Retained
- ▶ ED Cannot Add/Delete State Standards, Assessments, Or Accountability System To Approve State Plans
- ▶ AYP Removed Without New Performance Goals
- ▶ Elements of NSBA Bill (H.R. 1386) Incorporated:
  - ▶ ED Prohibited From Mandating/Coercing Standards/ Assessments Etc. /Imposing Unfunded Costs/ Or Exercising Governance/Admin Over Schools Unless in ESEA
  - ▶ Local And State Waivers/ No Conditions Added
  - ▶ Increased Local Input/Higher Standard For Regulations To Be Financially, Operationally, And Educationally Viable At Local Level

12

---

---

---

---

---

---

---

---

**ESEA: House Passed Bill (H.R. 5)  
(Con't)**

- ▶ States And School Districts Set Expectations And Determine How To Deal With Low Performance
- ▶ Consolidates To 12 Programs
- ▶ Eliminates Highly Qualified Teacher Requirements
- ▶ Teacher Evaluation Based On Student Outcomes As One Of Multiple Measures Is Optional
- ▶ State MOE Eliminated
- ▶ Funding Caps At Sequestration Level
- ▶ Title I Portability To Traditional/ Charter Public Schools

13

---

---

---

---

---

---

---

---

**ESEA: Senate Committee Bill (S. 1094)**

- ▶ No Caps On Funding
- ▶ Authorizes 39 Programs
- ▶ Pre-school Program Added
- ▶ Race To The Top/ Other Competitive Grants Programs Included
- ▶ AYP Replaced By New Performance Goals
- ▶ ED Approves Assessment/Accountability Plan Similar To Current Law
- ▶ Subgroup Data Reporting Significantly Expanded
- ▶ Identifies Criteria For Low Performing Schools And Requires One of Six Turnaround Options

14

---

---

---

---

---

---

---

---

**ESEA: Senate Committee Bill (S. 1094)  
(Con't)**

- ▶ Comparability Tied To School Based Budgeting
- ▶ Detailed Planning Requirements For Local Use Of Federal Funds Increased
- ▶ Retains HQT Requirements For New Teachers Until Growth/Improvement Systems Are In Place
- ▶ State Evaluation Systems Must, In Part, Be Based On Outcomes And Other Measures For Prof. Dev. And Assignment Purposes—But Necessarily For Salary And Firing Purposes

15

---

---

---

---

---

---

---

---

**Other Issues**

- ▶ ED's renewal process for waivers
  - ▶ Two year waivers: meet plan, monitoring, intervention requirements. Stakeholder involvement required.
  - ▶ One year waiver: state success/resolve monitoring issues and meet professional development goals. Stakeholder involvement
- ▶ E-Rate expansion under consideration
  - ▶ Raise funding level from \$2.25 billion to \$5billion
  - ▶ Broadband including capital construction to access broadband

  - ▶ Allows districts to waive requirements that are a net cost for competitive foods, school breakfast, and paid meal prices

16

---

---

---

---

---

---

---

---

### The Current Challenges For Districts

- ▶ Raise achievement for all students to levels that lead other nations
- ▶ Serve an increasingly diverse student population of whom around 20% live in poverty and a population that is approaching 40% nonwhite
- ▶ Expand program offerings in STEM subjects

17

---

---

---

---

---

---

---

---

### The Current Challenges (con't)

- ▶ Attract, develop, retain, incentivize competent teachers—remove failing teachers
- ▶ Utilize technology as an educational tool and cost efficient resource
- ▶ Build public confidence in public education as the go to delivery system for K-12 education
- ▶ Do all of above in a multi-year period of stagnant state/local revenues and rising obligations

\* Actual amounts received by LEAs will be smaller than shown here due to State-level adjustments to Federal Title I allocations. States adjust allocations, for example, to reflect LEA boundary changes or the creation of new LEAs, including charter school LEAs, that are not accounted for in the statutory calculations. States also are permitted to reserve, for administration, up to 1 percent of the allocations they would receive if \$14 billion were appropriated and generally must reserve 4 percent in fiscal year 2010 for school improvement activities. These adjustments will reduce the actual amounts available under all three columns of the table.

\*\* An LEA must use up to an amount equal to 20 percent of its Title I, Part A allocation (the "20-percent reservation") received from the State

## Fiscal Year 2010 Title I Grants to Local Educational Agencies - SOUTH CAROLINA

<u>LEA ID</u>	<u>District</u>	<u>FY 2010 Title I Allocation*</u>	<u>Maximum Required Expenditures For Choice-Related Transportation And Supplemental Educational Services**</u>	<u>Maximum Per-Child Expenditure For Supplemental Educational Services***</u>
---------------	-----------------	--	--	---

to cover choice-related transportation costs for students who exercise a choice option and to pay for supplemental educational services for students whose parents request such services. The 20-percent reservation may include Title I, Part A funds or funding from other Federal, State, local, and private sources. The amount shown in this column is the Department's estimate of the amount that affected LEAs - those with schools identified for improvement, corrective action, or restructuring - may have to spend to meet this requirement. Actual expenditures will depend on such factors as the number of students exercising a choice option or receiving supplemental educational services and the costs of satisfying these requests. An LEA has discretion to determine the allocation of these funds between choice-related transportation and supplemental educational services, except that it must spend at least one-quarter of the 20-percent reservation - or an amount equal to 5 percent of its Title I, Part A allocation - on each activity if there is demand for both from students and their parents.

\*\*\* An LEA that must arrange for supplemental educational services is required to pay, for each child receiving services, the lesser of the actual cost of the services or an amount equal to the LEA's Title I, Part A allocation received from the State divided by the number of poor students in the LEA, as determined by estimates produced by the US Bureau of the Census. Thus the amount shown in this column reflects the statutory "cap" on per-child expenditures for supplemental educational services.

\* Actual amounts received by LEAs will be smaller than shown here due to State-level adjustments to Federal Title I allocations. States adjust allocations, for example, to reflect LEA boundary changes or the creation of new LEAs, including charter school LEAs, that are not accounted for in the statutory calculations. States also are permitted to reserve, for administration, up to 1 percent of the allocations they would receive if \$14 billion were appropriated and generally must reserve 4 percent in fiscal year 2011 for school improvement activities. These adjustments will reduce the actual amounts available under all three columns of the table.

\*\* An LEA must use up to an amount equal to 20 percent of its Title I, Part A allocation (the "20-percent reservation") received from the State

to cover choice-related transportation costs for students who exercise a choice option and to pay for supplemental educational services for students whose parents request such services. The 20-percent reservation may include Title I, Part A funds or funding from other Federal, State, local, and private sources. The amount shown in this column is the Department's estimate of the maximum amount that affected LEAs - those with schools identified for improvement, corrective action, or restructuring - may have to spend to meet this requirement. Actual expenditures will depend on such factors as the number of students exercising a choice option or receiving supplemental educational services and the costs of satisfying these requests. An LEA has discretion to determine the allocation of these funds between choice-related transportation and supplemental educational services, except that it must spend at least one-quarter of the 20-percent reservation - or an amount equal to 5 percent of its Title I, Part A allocation - on each activity if there is demand for both from students and their parents.

\*\*\* An LEA that must arrange for supplemental educational services is required to pay, for each child receiving services, the lesser of the actual cost of the services or an amount equal to the LEA's Title I, Part A allocation received from the State divided by the number of poor students in the LEA, as determined by estimates produced by the US Bureau of the Census. Thus the amount shown in this column reflects the statutory "cap" on per-child expenditures for supplemental educational services.

\* Actual amounts received by LEAs will be smaller than shown here due to State-level adjustments to Federal Title I allocations. States adjust allocations, for example, to reflect LEA boundary changes or the creation of new LEAs, including charter school LEAs, that are not accounted for in the statutory calculations. States also are permitted to reserve, for administration, up to 1 percent of the allocations they would receive if \$14 billion were appropriated and generally must reserve 4 percent in fiscal year 2013 for school improvement activities. These adjustments will reduce the actual amounts available.
