

BEYOND THE BASICS

Special Education Services

Understanding, supporting and providing special education services can be very complex for local school districts. During this advanced-level training we will devote an entire day to helping you master many of the complexities of the Individuals with Disabilities Education Act (IDEA '04) and Section 504 of the American Disabilities Act. Educational leaders from across South Carolina will share policies, best practices and success stories about individual education plans. We will also discuss discipline of students with disabilities, college and career readiness and advocacy. The day will include engaging activities and board members will leave with practical next steps to aid them in responding to constituents and supporting the superintendent, administration and community.

You will not want to miss this opportunity. Seating will be limited.

The registration fee, which includes lunch, is \$100 per person. You may register at www.scsba.org.

Participating board members will receive 10 points and 5 hours SCSBA Boardmanship Institute credit.
