Registration
Use the links below to register for each webinar. There is no registration fee for this special series, however you must register to participate. After you register, you will receive a confirmation email. You will receive the link to participate in the webinar the morning of each webinar.

Boardmansion Institute
Participating board members will receive 1 point and 1 hour of SCSBA Boardmansion Institute credit for each webinar.

September 3, 2020
COVID-19 and potential liability under IDEA — Providing a “FAPE” while employing alternative instruction delivery methods
The Individuals with Disabilities Education Act (IDEA) requires that school districts provide eligible students with disabilities with a free appropriate public education or a “FAPE”. What constitutes a FAPE when schools are operating under normal circumstances, with traditional face-to-face instructional delivery, has been litigated extensively and legal guidance can be gleaned from Supreme Court rulings. Now, with the COVID-19 pandemic, school districts are faced with unique, unprecedented circumstances that are requiring the use of alternative instructional delivery methods during the 2020-2021 school year. This session will help board members understand how the Supreme Court has defined FAPE, and the core concepts relating to the provision of a FAPE. Participants will explore how the core concepts of providing a FAPE may be interpreted in light of the changes necessitated by the COVID-19 pandemic and how school districts can employ good practices to minimize potential IDEA liability.

Financing Options for SC School Districts

- General Obligation Bonds
- South Carolina Association of Governmental Organizations (SCAGO)
- General Obligation Bond Anticipation Notes
- Acquisition, Use and Security Agreements
- Performance Contracts/Energy Conservation Measures
- Special Obligation Bonds
- Educational Capital Improvement Sales and Use Tax
General Obligation Bonds

- School districts are authorized to issue general obligation bonds in the amount of not exceeding 8% of the assessed value of all taxable property within a school district, without voter approval. This is known as the “8% constitutional debt limit.”

- School districts may issue general obligation bonds in an amount beyond the 8% constitutional debt limit if those bonds are approved by the voters in a school district in a bond referendum.

General Obligation Bonds

- General obligation bonds can be short-term (one year or less) or long-term (up to 30 years).

- When general obligation bonds are issued, the school district delivers a “Notice to Levy and Collect” to the County Auditor and the County Treasurer.

- The County officials levy and collect annually, in the same manner as county taxes are levied and collected, a tax, without limit, on all taxable property in a school district, sufficient to pay the principal and interest on the general obligation bonds as they mature and to create such sinking fund as may be necessary therefor.
General Obligation Bonds

- Backed by the full faith, credit and taxing power of the issuer.
- Issued with the belief that the issuer will be able to repay its debt obligation through taxation.
- No assets used as collateral on general obligation bonds.
- Usually carry a lower interest rate due to lower default risk.
- May be tax-exempt or taxable.
- Most common form of debt issued by South Carolina school districts.

General Obligation Bonds

- If approved by referendum:
  › Can issue up to the amount approved by the voters.
  › Projects limited to referendum question.
  › Must be issued within five years of referendum date.
SCAGO

- Nonprofit corporation created in 2002 largely through the efforts of representatives of the South Carolina Association of School Administrators (SCASA) and the South Carolina Association of School Business Officials (SCASBO) for the purpose of offering efficient, cost-effective financing programs for South Carolina school districts and other political subdivisions.

- Nine-member Board of Directors comprised of school district finance officers, superintendents and community members.

SCAGO General Obligation Bond Program

- Each school district issues its own general obligation bond.
- SCAGO facilitates the collective public sale of the bonds.
- Maturity of one year or less.
- Through economies of scale, school districts participating in SCAGO benefit from:
  - Low interest rates
  - Low costs of issuance
  - Ease and convenience
SCAGO

• SCAGO 2020 Spring General Obligation Bond Program
  › Total Par Amount – $64,610,000
  › Number of school districts - 28
  › True interest cost – 0.81%

• SCAGO 2020 Fall General Obligation Bond Program (Taxable and Tax-Exempt)
  › Total Par Amount – $136,838,000
  › Number of school districts - 29
  › True interest cost – Taxable - 0.23% ; Tax-Exempt – 0.16%

General Obligation Bond Anticipation Notes

• Like general obligation bonds, general obligation bond anticipation notes are subject to the 8% constitutional debt limit.

• General obligation bond anticipation notes are issued for one year or less and are secured by: (1) the bonds to be issued and (2) the full faith, credit and taxing power of a school district.
General Obligation Bond Anticipation Notes

- Short-term one-year debt.
- Can be rolled over for additional years.
- Secured by proceeds of a general obligation bond to be issued in the future.
- Do not require the levy and collection of ad valorem taxes because secured by general obligation bond.
- Good tool for projects that are going to be funded with general obligation bonds backed by a revenue source such as a sales and use tax.

Acquisition, Use and Security Agreement

- Ability to finance equipment outside of the 8% constitutional debt limit.
- Similar to an installment purchase for equipment.
- Concept of “Rental Payments” is replaced with “Acquisition Payments.”
- For each “Acquisition Payment,” the issuer receives an unencumbered equity interest in the underlying financed collateral.
- “Acquisition Payments” are eligible to be paid from operations millage or debt service millage (via annual general obligation bond proceeds).
**Acquisition, Use and Security Agreement**

- Typically sold to a bank.
- The payments are subject to annual appropriation.
- If a school district non-appropriates, it owns the equipment already acquired and loses use and possession of the remainder of the equipment. At the end of the term of the agreement, the school district owns all of the equipment.

**Acquisition, Use and Security Agreement**

- South Carolina Code of Laws 11-27-110 sets forth the requirements to determine if an acquisition, use and security agreement is subject to the 8% constitutional debt limit.
- 11-27-110 (1) defines an “Asset” as any real property and permanent improvements thereon including structures, buildings, and fixtures.
- If an acquisition, use and security agreement does not finance an "Asset" the amount does not count against the 8% constitutional debt limit of a school district.
- If the project is an energy conservation project, the amount of the acquisition, use and security agreement does not count against the 8% constitutional debt limit of a school district.
Performance Contracts/Energy Conservation Measures

• School districts may enter into performance contracts or other arrangements for projects that result in energy savings.

• In performance contracts, the savings are guaranteed.

• The cost of the projects can be financed by the vendor or through an acquisition, use and security agreement or special obligation bonds.

Performance Contracts/Energy Conservation Measures

• Annual payment for the cost of a performance contract can be paid from the guaranteed savings.

• If the cost of the project is financed through an acquisition, use and security agreement or special obligation bonds, its annual payment can be made from the proceeds of annual general obligation bonds.
Special Obligation Bonds

- Issued for the acquisition of equipment or an energy savings project.
- Secured by an acquisition, use and security agreement.
- Sold in public market.

Educational Capital Projects Sales and Use Tax

- One percent sales and use tax, the imposition of which must be approved in a referendum.
- Must be used for specific educational capital improvements and/or payment of debt service as set forth in the referendum question.
- Cannot exceed 15 years; in certain circumstances less.
- School district must meet the requirements of one of the issuer categories in the Act.
Educational Capital Projects Sales and Use Tax

- The Act includes a variety of requirements designed to allow some but not all school districts to utilize the Act.

- The current language in the Act is the result of legislative action taken in 2014 and 2016.

- If a school district is interested in imposing the sales tax, it has to fit into one of the categories or needs to request another amendment to the Act.

Short-Term – Annually

- General Obligation Bonds
  - SCAGO
  - Stand Alone
  - Annual general obligation bonds allow school districts to meet immediate capital needs while keeping the millage rate stable

- General Obligation Bond Anticipation Notes
Mid-Term – One to Five Years

• General Obligation Bonds

• General Obligation Bond Anticipation Notes (rolled over)

• Acquisition, Use and Security Agreements

• Performance Contracts/Energy Conservation Measures

Long-Term – Over Five Years

• Referendum-approved General Obligation Bonds

• 8% General Obligation Bonds

• Acquisition, Use and Security Agreements

• Special Obligation Bonds

• Educational Capital Improvement Sales and Use Tax
